Celebrating a Harvest Supper

By: Janice Miller

As the 2017 gardening season is drawing to a close, we celebrated the fruit of our labor with our neighbors in the [NEIGHBORHOOD NAME] neighborhood on October 21st, 2017 at the [COMMUNITY CENTER NAME] community center. This garden is particularly special to us, as we have been able to involve the youth group from the First Baptist Church in its creation.

Particularly Youth Pastor Jason Jefferson has been instrumental in the effort to have the youth group assume ownership of this garden, thereby making sure that it will be carried on for years to come.

We enjoyed a potluck of harvest dishes cooked with vegetables from the garden. A huge success was the pumpkin pie contest, with Micayla Peters taking first price.

The highlight of the night was our veggie bingo, for which several local businesses continue to donate prizes. Thank you for all you do!

Amicably, *Janice*

"Even with WIC I was not able to provide my kids with the nutrition they needed because it was so hard to get to the grocery store without a car. This garden has been so great for us, and I've been learning so much about growing food and how to preserve it." - Debra S., local resident, about the inaugural garden established in February of 2017.

Preserve it!

We are proud to announce our first canning workshop on November 4, 2017 (Saturday) at 3 PM. We will gather at [COMMUNITY CENTER NAME] community center to learn about conserving tomatoes, beans and other produce we have harvested "the old-fashioned way".

Cost of this 2-hour program is \$20 (donation), which includes the jars and other materials needed. Don't worry if you are interested but cannot pay the full amount, there are scholarships available.
